ECOCAPSULE® ORIGINAL

CUSTOMIZATION OPTIONS®

EXTERIOR

OUTER SHELL COLOR

The outer shell coating of Ecocapsule is extremely durable, offering protection from weather conditions. The surface material has a very good mechanical and chemical resistance.

You can choose from a variety of colors and combinations. It is also possible to customize the pattern design according to your wishes (this option is charged separately). If you are interested in this option, please let us know via email.

INTERIOR FURNITURE FINISH

The furniture is made from lightweight plywood, coated with high-pressure laminate - layered sheets of thick paper impregnated with phenolic resins and a sheet of decorative paper impregnated with melamine resins. The laminate layer ensures that the furniture is dustproof with a high degree of resistance to scratching, stains and even boiling water.

MATTRESS COLOR

We are committed to provide the best sleeping experience. That's why we have equipped Ecocapsule with a Bedeur® mattress. This exclusive mattress is made of natural, environmentally friendly materials of top-notch quality and verifiable origin. They are the guarantee of long lifespan, absence of allergens and most of all a healthy sleep. The Bedeur® mattress has great airiness and thermoregulatory ability, delivering a harmony of warmth, dryness and delicacy.

Scrubba Wash Bag	Light-weight manual wash bag ideal for traveling. Made from durable, microbial and hydrolysis resistant polyether (thermoplastic polyurethane).	69 €

SPACE by ECOCAPSULE®

EXTERIOR

SPACE BY ECOCAPSULE® FEATURES

SPACE by Ecocapsule is very variable micro-unit offering 6.3 m² of inner space. It has a practical use e.g. as a home-office, a sales place, an extra room for a house or a cottage. It can become a houseboat (if adding a pontoon) or you can have it as an additional unit for Ecocapsule ORIGINAL. SPACE enlarges its capacity to 4-5 people, which makes it also a great virus-free accommodation option for hotels and resorts.

SPACE by Ecocapsule is made as semi-offgrid. This means it combines high-efficiency solar panel on the telescopic pole providing green energy with a possibility to get energy from the grid, in case of need.
